To Whom It May Concern:

The undersigned has been a practicing attorney for over forty years. I have also served as a Florida State Legislator, a Duval County Commissioner, as President of the Jacksonville City Council and in many other civic capacities. During this time, I have had contact with many different non-profit organizations.

I wholeheartedly endorse and support Tekna-Theos. Any individual or organization that partners to help them in their efforts of building the bio-reactor for space medical research will also be helping our future – for the youth of today are the leaders of tomorrow.

These students are making a very serious and meaningful contribution to the health of our civilization if we make the means available to them.

If you have any further questions or want a more personal feedback, please feel free to contact me at the above number.

Sincerely,

William T. Basford
